There's a lot more on the way from all of our Group brands. Here's just a flavour.

Ezugi

As seen in Barcelona, Ezugi adds even more to your live games choice. **Revolution Roulette**, **Triple Zero Roulette**, and **EZ Bingo** all wowed visitors to ICE. Each new title exemplified the Ezugi approach of offering something new and different, with Revolution Roulette, for example, featuring a unique wheel with 2x, 3x and 5x multiplier pockets.

Livespins

For the first time ever, Livespins streamed live from an Evolution Group ICE stand and shared for how to socially charge their players' gaming experiences through interactive and community-driven play. It's a strategy you'll want to take further to grab the attention of new generations of gamers!

SLOTS SHOWCASE

As always with Evolution Group, there's also a great deal to look forward to in online slots from brands renowned worldwide for their ability to create huge player-pleasing favourites. Here are the headliners premiered at ICE Barcelona... but, of course, these titles are just the tip of the iceberg!

Nolimit City continue to push the boundaries with **Tombstone Slaughter** and **Duck Hunters**. Tombstone Slaughter, the latest sequel in the Tombstone series, is a six-reel slot featuring xNudge® Wilds, Revolver-triggered Cylinder features, Slaughter and Massacre Spins that include El Gordo's revenge meter that awards unique multipliers and free spins, and a massive max payout of 500,000x the base bet. Duck Hunters features cluster pays, cascading reels, xWays®, Infectious xWays®, Exploding Bombs, and bonus-triggered upgrades in Duck Hunt, Hawk Eye and Big Game Spins.

Red Tiger is set to unleash **Zillard King Megaways**, where a monstrous beast evolves through three stages, unlocking Free Spins and summoning electrifying Thunder Wilds. In **Serpent King**, a new king emerges, continuing the legacy of Primate King and Zillard King. **Bass Boss Megaways** offers fishing fun with the chance to reel in big fish, and in **Gods of Troy Megaways**, collecting shields can lead to divine transformations and legendary rewards every 10th spin.

From NetEnt comes **Finn and The Dragon Tales**, in which slot favourite Finn is gearing up for his most daring quest yet, battling dragons to claim Golden Keys and unlock hidden worlds. But **Jack Hammer 4: Chasing The Dragon**, **Divine Fortune Black** and **Golden Egg Invaders** are grabbing a lot of attention, too. Each deliver their own unique adventures, featuring gangster showdowns, divine riches, and intergalactic UFO encounters respectively.

Big Time Gaming, the creators of Megaways, unveil **Max Megaways 3** and **Big Bucks Deluxe**. In Max Megaways 3, Join Max on his latest high-stakes mission where the Megadozer delivers Bonus Coins and Free Spins features two doors to choose from. RACE TRACK

ULTRA-FAST RACING GAME
LIVE NOW!

Step back into the arcade era with Race Track, where the retro charm of the 1980s meets the excitement of horse racing! This ultra-fast RNG game puts players right in the action, as they place their bets and see if their chosen horse will race to victory.

Each game round lasts only 12 seconds, designed for players craving more rapid gaming action. Six horses, each with their own characteristics, are randomly selected from a pool of 50, ranging from strong favourites to underdogs. With varied odds and payouts, every race is full of surprises!

A BET FOR EVERYONE!

Punters can play it safe with a horse that has a strong track record, or go for a riskier bet and chase those bigger payouts. If they need some help deciding they can easily check out the stats and see how the horses have performed in past races.

DINOSAUR RACERS TOO!

Race Track also features an epic Dinosaur mode, where prehistoric giants charge towards victory. Just like the horses, each dinosaur has unique traits, making every race an action-packed spectacle. Each mode includes the option of 'with live dealer commentary' or 'without'.

Race Track offers arcade-style fun for the modern digital age—and a chance for players to place their bets, soak up the race day atmosphere, and feel the rush as they cheer their chosen racer to the finish line!

ALWAYS 8 BACCARAT

CAPTIVATING NEW VARIANT AVAILABLE NOW

Ready to elevate your Baccarat gameplay? In this special variant, the Banker's first card is always an '8', introducing a fresh challenge that allows players to fine-tune their strategies and uncover new patterns.

The thrill of predicting whether the Player or Banker will get closest to 9 remains at the heart of the game. But the excitement doesn't stop there. If players are feeling bold they can take it up a notch with side bets like 'Banker Pair' and 'Player Pair' for a shot at even bigger payouts.

Get into the action today!

BET STACKER BLACKJACK

SEVEN-SEAT 'STACKER' GAME IS HERE

Bet Stacker Blackjack is now live, offering an exciting twist on the classic game. And now, we're introducing the seven-seat version, perfect for players who enjoy the social thrill of playing at a full table.

With the Bet Stacker mechanics in place, every hand holds the potential for bigger payouts, making this a must-try for Blackjack fans.

In each game round there's a randomly generated Bonus element with a rank just like a playing card (A, 2, 3, 4, 5, 6, 7, 8, 9, 10, J, Q or K) that can multiply the player's main bet by 25%, 50%, 75%, or even 100%. If one or both of the player's initial two cards match the rank of the Bonus element, its monetary value is added to their main bet for each match.

While there are seven seats at the table, the Bet Behind feature allows an unlimited number of players to join the action by wagering on another player's hand. That means more ways to win and even more strategic play!

Take a seat and experience the thrill of stacking your bets today!

RED DOOR ROULETTE

NOW WITH THREE FLAPPERS IN
THE BONUS ROUND

Big news—Red Door Roulette has just been upgraded!

This standalone version of the Crazy Time Bonus game now features a player decision for the virtual wheel. On entering the Bonus round, players now get to choose one of three flappers—green, blue or yellow—just like in the original Crazy Time Bonus game.

The game host will then push the button to start the wheel, and when it stops, the flappers will point to three segments. You win the multiplier indicated by your chosen flapper, which is instantly applied to your winnings.
